

DMSL - 19C

Ballymore's mini scissor lifts are the ideal solution for overhead access in construction maintenance. With their unique compact design and the ability to reach working heights of up to 25ft, the mini-series is the preferred model for working in confined spaces. The direct electric drive allows for smoother functioning controls, greater maneuverability, and an increase in operational usage.

25' WORKING HEIGHT

Small footprint for easy accessibility in tight spaces.

STANDARD EQUIPMENT
