

BALLYPAL-STK72BC-DRV

Drivable Lateral Ball Transfer Table (LBTT)

500 lbs Capacity

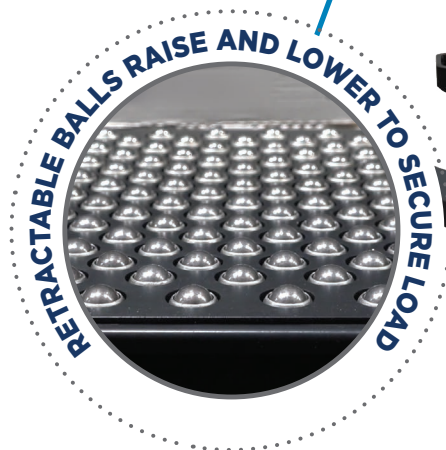

FEATURES

- Mobile all directional conveyor table. This new innovation allows the user to easily slide heavy products onto the deck and safely move them to a shelf or cart. Turning a lift and carry activity into simple effortless slide.
- The TBTT allows an employee to slide product on or off a shelf anywhere from 6 1/2" high to 72" without lifting.
- Product can be rolled onto the table and rotated to the desired direction with ease.
- Easily move heavy products from the truck to the shelf and from the shelf to the customers cart.
- The balls retract automatically when the table is lowered to provide a secure surface for transport.
- Balls can be raised and lowered independently of the table height control if needed.
- Lithium Battery with on board charger
- Access controlled by key pad see through center mast for maximum visibility
- Drive wheel provides excellent traction for use on flat, smooth surfaces only
- Patent pending

SPECIFICATIONS

- Table Dimensions: 31 1/2"W x 36" D
- Overall Height: 89"
- Footprint: 60" Overall Length x 34" Overall Width
- Litium Battery: 24V
- Raised Table Max Height: 72"
- Table Lowered Height: 6 1/2"
- Weight 1,364 Lbs
