

MULTI-PLATFORM ACCESS SYSTEM

Create a customized aluminum multi-height platform system, crossover ladder or work stand by using any combination of the five components.

The Multi-Platform Access System allows you to design your own complete platform and ladder configuration to suit any application where work is being done at height. The platform components can be used together for more width or length. You can create a custom multi-tiered system by using the various ladder and stair components available. The versatility of the platforms' ability of being connected to any other component truly gives you the multi-platform access options!
